

Acknowledgements

The Geneva Financial Center carried out this Economic Survey according to the methodology used in previous years. The survey is sent to directors of banks and independent asset managers in Geneva every year in June. The results presented in the following pages reflect their analyses and perceptions. The survey provides long-term data and is therefore a useful tool to measure changes in opinion among financial intermediaries regarding business performance and the outlook for the Geneva financial center.

In view of the high percentages of respondents, we consider the survey to be representative of the sector as a whole.

We would like to extend our sincere thanks to all those who agreed to take part in the survey.

We also wish to thank

- The Organisme d'Autorégulation des Gérants de patrimoine (OAR-G)
- The Swiss Association of Independent Financial Advisors (SAIFA)
- The Association Romande des Intermédiaires Financiers (ARIF)

for their assistance in contacting their respective members for the purpose of this survey.

These include independent asset managers as well as other financial intermediaries. For practical reasons, they are presented under the name «independent asset managers» in the Economic Survey.
